

Create a Bag From a T-Shirt!

1. **Cut a wide neckline.** Make sure it is big enough that you can put items through the hole you make!
2. **Cut off** the sleeves.
3. If you want to hide the fringe and knots from your bag (like the black sample), **turn your shirt inside-out.**
4. **Cut fringe** at least 3" long along the bottom of your shirt, through both layers.
5. **Tie** the front fringe to the back and make a knot.
6. You're done!

This project is made possible in part by the Institute of Museum and Library Services RE-05-0021-15.
